ULTRIX February 1996 Online Documentation Library Master Index

Table 1-1 lists the products for which documentation is included on the ULTRIX Online Documentation Library discs. Each disc contains a bookshelf which references books on that disc. In addition, a master bookshelf exists on disc 1 which references the books on both discs. This master bookshelf has been added as a convenience for multiple CD-ROM drive users.

The columns in the table contain information as follows:

Column Name	Column Contents
Product Name	The name of the product.
Vers	The version number of the product.
UPI	The unique product identifier.
CD	The number of the disc on which the product is located.
Status	Indicates whether the documentation is a new addition to the disc or has been updated since the last issue.

_____ A Note About Document Versions and Product Versions _____

In some cases, the product version numbers listed in Table 1-1 may not coincide with the version numbers of the books on the disc. However, the online documentation does support the current shipping version of the product.
